Forecast for Monday 29 Jul 2024

Weather: Patchy fog forming through the early hours, this quickly clearing after dawn to leave another fine day with plenty of sunshine. Some cloud is likely at times, but this will be above the summits. Feeling very warm in the sunshine.

Chance of cloud-free hill tops above 600m: 80% becoming 100%.

Low cloud and visibility: Fog and very poor visibility in some low lying valleys at first, this lifting and possibly giving some ribbons of cloud around 300-500m for a few hours. Thereafter widely very good visibility with distant hills and landmarks clearly visible and any cloud well above the summits.

Meteorologist's View

High or very high UV levels with strong sunshine so sun protection is advised. Much warmer than of late too, so staying hydrated and taking plenty of water is also advised.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Tuesday 30 Jul 2024

Weather: Lengthy clear periods through the early hours with mist and fog forming in the valley bottoms. This lifting and quickly clearing after dawn to leave a mostly sunny day with just some high cloud and some fair weather cloud bubbling up. A mild start and temperatures quickly rising, feeling very warm in the sunshine by the afternoon.

Maximum wind: North-easterly, sometimes light and variable, 05-15 mph.

Chance of cloud-free hill tops above 600m: 80% becoming 100%.

Low cloud and visibility: Fog and very poor visibility in some low lying valleys at first, this lifting and possibly giving some ribbons of cloud around 300-500m for a few hours. Thereafter widely very good visibility with distant hills and landmarks clearly visible and any cloud well above the summits.

Temperature: **Valleys:** Plus 10 Celsius rising to plus 26 Celsius.
At 600m: Plus 12 Celsius rising to plus 21 Celsius.
Freezing level: Well above the summits.
